

Airl is a great radio station and i have been listening to it for many years. It provides music that is positive and none great for many people to listen to. Allowing this station to be replaced would be a great lost because their would not be anything like it to take its place. I believe that it is in public intrest to keep becuase this station is a listener ran station. People support each year to keep it on and running with out any commercieal breaks and many listeners love that.

So please do the right thing by not replacing my Airl station.

steve
